The International Virtual Laboratory for Enterprise Interoperability
9 member Poles, 74 partners, 300 researchers

Internal Bulletin   December 2011

The INTEROP-VLab management publishes an Internal Bulletin addressed to the I-VLab partners only. This bulletin gives a brief overview of the current activities in the network and with the EI community. If you want to share news or promote events related to Enterprise Interoperability with the other partners, you can send it by email to info@interop-vlab.eu.

CONTENT

What happened in INTEROP-VLab in the last months

The I-VLab management participated to several meetings in the frame of the I-VLab management, the relations with the other communities and for the projects activities, for example:

— the ComHigh Tech (CHT) Seminar and the UNITE Doctoral Symposium (June, Romania)
— the SAMOS SUMMIT 2011 (July, Greece)
— the UNITE Project meeting (September, Lisbon)
— The MSEE project Kick Off meeting (October, Milano)
— FInES Cluster meeting (October, Brussels)
— FIA Poznan (October, Poland)

Preparation of a project proposal in the FI-PPP call Phase 2

The Management of I-VLab is trying to launch a common project involving all the pole members. In 2010, a project was set up in the frame of the objective 1.8, Future Internet (FI) "Use Case scenarios and early trials (Phase 1)". The project was not selected. It was decided to prepare a second project to the same call but 2nd phase (deadline October 2012). The principle is the same: each pole proposes an ecosystem composed of a network of SMEs, one or two research centers, one or two IT providers belonging to the pole. The goal is to determine the requirement for FI based on the running of each local ecosystem and also for the interaction between ecosystems. The project will be supported by the main actors of the FI domain. A meeting will be organized in Brussels on December 21st with the Pole representatives, who will present the ecosystem of their Pole, and the actors of FI.

The FInES Research Roadmap

The FInES Task Force will present the version 1.9 of the Research Roadmap at the next cluster meeting on 19-20 Dec. 2011. The I-VLab management will organize a call for contribution among the I-VLab partners by the end of the year, to comment and contribute to the version 2.0 which is planned for release at the end of February 2012. Be prepared to contribute!

New on the I-VLab Platform: => Projects in the Member Poles

The list of main EU and National research projects in each Member Pole, is available on the Platform. This enables the partners to know more about the research activities in the other Poles and to show externally their domains of competences and interests to initiate future collaborations.

View the list of main Research Projects in the I-VLab Poles

=> The Standardisation Workspace

The Standardisation Group coordinated by Martin Zelm (INTEROP-VLab, DFI German Pole), has updated the Standardisation Workspace available on the platform. You will find in this space, in addition to the reports and presentation of the Group, papers and articles on EI Standards, and a working draft of the upcoming second issue of the FInES Standardisation Task Force report, coordinated by Martin Zelm.

Search of experts in "Semantic Knowledge Standards"

In the context of EU FP7 Call7 IP ICORE and its State of the Art "Semantic Knowledge Standards", Patrick Guillemin (ETSI) is looking for experts aware of this specific domain of and other possible already existing standards under development. You can contact him by email at Patrick.Guillemin@etsi.org.

Model Driven Interoperability Wikipedia article

The Education committee under the coordination of Raul Poler (INTERVAL, Univ. Polytechnic of Valencia), has proposed a draft article of MDI on Wikipedia. The article has been reviewed by the I-VLab Task Force MDI/SOA, especially with a large contribution of Jean-Pierre Bourey (PGSO, Ecole Centrale de Lille). If you want to improve or comment this article, please do it online and send an email to the coordinator (rpoler@cigip.upv.es). Once the draft will be completed, the MDI article will be submitted to go live on the web.

I-ESA 2012: 20-23 March 2012, Valencia (Spain)

**I-ESA 2012, the 6th International Conference on Interoperability for Enterprise Systems and Applications
"Shaping Enterprise Interoperability in Future Internet"**
Organized by the Universidad Politécnica de Valencia and INTEROP-VLab, with the sponsorship of the International Federation for Information Processing (IFIP) and the International Federation of Automatic Control (IFAC).

The call for papers for conference is closed but you can still submit a paper to workshops sessions, until December 15th, 2011: **call for Workshops papers**

View the draft programme here
Conference website: www.i-esa.org

Open calls for projects

- Marie Curie Initial Training Network - deadline: 12 January 2012
- ICT Call 8 – deadline: 17 January 2012
- Leonardo Da Vinci - deadline: 02 February 2012
- EUROSTARS – deadline: 01 March 2012
- INTERREG SUDOE - deadline: 02 March 2012
- Marie Curie Industry Academia Partnerships and Pathways (IAPP) – deadline: 19 April 2012

More information about the open calls
(accessible only by logged in partners)

Upcoming meetings and events

- **FInES Cluster meeting** – 19-20 December 2011, Brussels, Belgium (registration before Dec. 14) - more
- **INTEROP-VLab meeting for FI-PPP project** – 21 December 2011, Brussels, Belgium (on invitation)
- **I-ESA 2012 Conference** – 20-23 March 2012, Valencia, Spain - more
- **IoT CoAP Plugtests** – 24-25 March 2012, Paris, France - more
- **FIA Aalborg** – 10 May 2012, Aalborg, Denmark - more
- **INTEROP-VLab General Assembly and working meetings** – 26-28 June 2012, Brussels, Belgium

UNITE Secondment Programme   **www.unite-europe.eu**

Funding mobility of researchers, PhD students, IT experts interested in exchanging experiences and complement their areas of expertise in the Future Internet domains.
Take this opportunity to carry out a project in the Future Internet domains (Internet of Services, Internet of Things...)by collaborating with a university, a research center, a company, abroad.
The call for secondment is constantly open, and the next notification of acceptance will be on the 31st January 2012, and will take into consideration all the applications submitted until 1st January 2012.
